

# L'ARTICO VISTO DA NY-ÅLESUND

Risultati delle ricerche, nuove proposte e visioni d'insieme

18-19 marzo 2019  
Roma

**Lunedì 18**

10:00 Registrazione

10:45 Apertura dei lavori e saluti

11:00 La ricerca alle Svalbard: la Stazione Artica Dirigibile Italia (A. Viola)

11:15 Artico 2018, l'interesse dei media (M. Ferrazzoli)

## COMUNICAZIONI ORALI

11:30 – 13:30 **Oceanografia e mare (Chair: T. Tesi)**

- *S. Aliani et al.*, Italian Marine Arctic Experimental Infrastructure in Ny-Ålesund
- *G. Buscaino et al.*, Passive acoustic monitoring of the Kongsfjorden
- *L. Langone et al.*, Multi-year particle fluxes in Kongsfjorden, Svalbard
- *S. Aliani et al.*, Ocean Heat content in Kongsfjorden, Svalbard
- *N. Ademollo et al.*, Disentangle local and remote contamination in fjord ecosystem of the high Arctic
- *F. Ardini et al.*, Trace elements in the Kongsfjorden: presence, sources and bioavailability
- *M. Azzaro et al.*, Microbiological research in Kongsfjorden
- *L. Ghigliotti et al.*, The Arctic marine fish fauna in the Kongsfjorden

13:30-14:30 Pausa pranzo

14:30 – 16:30 **Atmosfera (A. Viola)**

- *M. Mazzola et al.*, Atmospheric Observations at the Amundsen-Nobile Climate Change Tower: climatology and processes
- *M. Giordano et al.*, Fiber OPTic thermOhygrometers for AdmudseN-Nobile Climate Change Tower (CCT)
- *D. Cappelletti et al.*, Spatial distribution of aerosol properties in the lower troposphere upon Ny-Ålesund
- *E. Barbaro et al.*, Chemical composition of Arctic aerosol: water soluble organic compounds, trace and rare earth elements
- *R. Traversi et al.*, Aerosol Biogeochemical cycles, Sources and Transport processes in the climate sensitive ArCTic
- *M. Malandrino et al.*, Elemental composition and isotopes of lead in atmospheric particulate matter collected in Ny-Ålesund
- *V. Vitale et al.*, Monitoring of surface solar UV irradiance and ozone column at Svalbard
- *S. Massetti et al.*, Study of Northern Lights at high latitudes. Space Weather and Sun-Earth correlations

16:30 – 17:00 Pausa caffè

# L'ARTICO VISTO DA NY-ÅLESUND

Risultati delle ricerche, nuove proposte e visioni d'insieme

18-19 marzo 2019  
Roma

17:00 – 18:15 Innovazione tecnologica e scientifica (A. Iadanza)

- C. Musacchio et al., Reassessing air temperature profiles at the Climate change Tower by on site calibrations
- G. Bruzzone et al., Autonomous marine and aerial vehicles for carrying out scientific surveys near Arctic tidewater glaciers
- A. Merlone et al., The Global Cryosphere Watch prescriptions and guidelines on measurement traceability and related WMO initiatives
- S. Masi e P. De Bernardis, Stratospheric Balloons from Svalbard Islands
- L. Spogli (De Franceschi et al.), Monitoring the ionospheric irregularities through GNSS signals: the ISACCO and GENIUS projects

## SESSIONE POSTER

18:30 – 20:00 Poster e rinfresco

\*

**Martedì 19**

## COMUNICAZIONI ORALI

9:00 – 10:15 Criosfera (Chair: A. Spolaor)

- M. Doveri et al., Isotopic signatures, physical-chemical features and flow rates of glacial drainages in the Ny-Ålesund area, Svalbard
- M. Guglielmin et al., Permafrost, active layer thickness and related morphology changes monitoring
- R. Salvatori et al., Remote e Proximal sensing per lo studio delle coperture nevose
- R. Salzano et al., Exchange processes at the air-snow interface
- A. Spolaor et al., Chemical fingerprints in Svalbard snow and ice to understand the changes occurring in Arctic

10:15 – 10:45 Pausa caffè

10:45 – 13:00 Ecosistemi terrestri e suolo (Chair: A. Augusti)

- L. D'Acqui et al., From Ice To Soil
- I. Baneschi et al., CZO@Bayelva: Observing Earth Critical Zone processes in the Bayelva basin
- E. Miccadei et al., Geomorphological Mapping In The Kongsfjorden Area
- V. Pasquali, Biological rhythms in polar animals
- E. Calizza et al., Nutrient inputs and food webs in high-Arctic lakes
- N. Cannone et al., Effects of abiotic and biotic factors on CO<sub>2</sub> land-atmosphere fluxes in the High Arctic

## L'ARTICO VISTO DA NY-ÅLESUND

Risultati delle ricerche, nuove proposte e visioni d'insieme

18-19 marzo 2019  
Roma

- *F. Ferlazzo et al.*, Biological rhythms and decision-making in high arctic residents during summer and winter
- *N. Cannone*, Climate warming impacts on Arctic vegetation
- *Augusti et al.*, The Contribution of Tundra Ecosystem to Carbon Fluxes

13:00 – 14:00 Pausa pranzo

14:30-15:00 Stato e prospettive della ricerca Italiana alle Svalbard (*A. Provenzale*)

15:00-16:30 Discussione

16:30 Chiusura dei lavori

# L'ARTICO VISTO DA NY-ÅLESUND

Risultati delle ricerche, nuove proposte e visioni d'insieme

18-19 marzo 2019  
Roma

## Sessione Poster

### Oceanografia e mare

- *V. Iannilli et al.*, First evidence of microplastics ingestion in benthic amphipods from Svalbard
- *R. Grammauta et al.*, Real-time acoustic monitoring system in Ny-Ålesund
- *G. Alonge et al.*, A new methodology for the study of ice calving events from underwater acoustic data
- *M. Lelli et al.*, AR-DIS-CO<sub>2</sub>: Arctic Dissolved CO<sub>2</sub> project
- *G. Buscaino et al.*, Seasonal distribution of vocalizations and analysis of some acoustic parameters of haddock fish *Melanogrammus aeglefinus* in Kongsfjorden
- *C. Cantoni et al.*, Glacial drivers of marine biogeochemistry in an Arctic fjord: the Kongsfjorden case study
- *L. Langone et al.*, Particulate organic carbon fluxes off Storfjorden
- *S. Miserocchi et al.*, Modern sediment distribution and composition in Kongsfjorden, Svalbard
- *T. Tesi et al.*, Paleo climate reconstruction in Kongsfjorden over the last 1k years: preliminary results of C3 project
- *E. Papale et al.*, Detection of the acoustic presence of beluga (*Delphinapterus leucas*) in the Kongsfjorden

### Atmosfera

- *F. Dallo et al.*, Laboratory calibration and field assessment of low-cost electrochemical Ozone sensors in Alpine and Arctic environments
- *S. Gilardoni et al.*, Short climatology of Brown Carbon in Ny-Ålesund
- *D. Cava et al.*, The highly stable boundary layer as a driver of atmospheric dynamics and thermodynamics at high latitudes
- *M. Rinaldi et al.*, Spring and Summer-time INP Observations at Ny-Ålesund by DFPC
- *L. Caiazzo et al.*, Biogenic Aerosol, oceanic Primary production and Nucleation Events in the Arctic – BioAPNEA
- *F. Carotenuto et al.*, Application of Low-Cost Sensors in Extreme Environments: One Year of Measurements
- *L. Di Liberto et al.*, Lidar measurement in the arctic Planetary Boundary Layer
- *M. Feltracco et al.*, Free and combined L- and D-amino acids in Arctic aerosol
- *M. Mazzola et al.*, Moon-Photometric Observations during the Polar Night
- *A. Cecinato et al.*, Organic pollutant in the Ny-Ålesund's atmosphere

### Innovazione tecnologica e scientifica

- *C. Elefante (A. Viola et al.)*, The Italian Arctic Data Center (IADC): an integrated interoperable digital system for arctic data management
- *V. Romano et al.*, NARWHALS, an ESA funded project to support the maritime navigation in Arctic
- *G. Bruzzone et al.*, Autonomous marine and aerial vehicles for carrying out scientific surveys near Arctic tidewater glaciers

### Criosfera

- *E. Barbaro et al.*, Free amino acids in the Arctic snow and ice core samples: Potential markers for paleoclimatic studies
- *E. Barbaro et al.*, Change in chemical composition of the annual snow layer: the effects of rain event and melting processes
- *A. Spolaor et al.*, Degradation of the climate signal preserved in Svalbard ice archive
- *A. Spolaor et al.*, Diurnal cycle of iodine and mercury concentrations in Svalbard surface snow
- *F. Burgay et al.*, Iron species in ice cores. First results and new directions of research
- *M. Vecchiato et al.*, Local and long-range sources of fragrances in snow and seawater of Ny-Ålesund

### Ecosistemi terrestri e suolo

- *G. Giacalone et al.*, Extraction and identification of biological patterns from multibeam acoustic data acquired in Kongfjorden
