

December 13, 2021
CNR Neuroscience Institute and BIOMETRA Department,
University of Milan

**Nicotinic Acetylcholine Receptors: from Molecular Pharmacology to
Behaviour**

- 16.00 Welcome address:
Michela Matteoli, Director, CNR Neuroscience Institute
- 16.10 Francesco Clementi (Milan, Italy): *Introduction to the Symposium*
- 16.30 Jean Pierre Changeux (Paris, France): *Keynote lecture- Structure and allosteric modulation of ligand gated ion channels of the nicotinic receptor family*
- 17.00 Marina Picciotto (New Haven, CT, USA): *Nicotinic receptor effects on aggression*
- 17.30 Pierre-Jean Corringer (Paris, France): *Conformational Transitions of Pentameric Channel Receptors in the Cellular Environment*
- 18.00 Michele Zoli (Modena, Italy): *A survey of the nicotinic acetylcholine receptor subtypes in the brain and peripheral tissues: The contribution of Cecilia Gotti.*
- 18.30 Cecilia Gotti (Milan, Italy): *Concluding remarks*

18.45 - End of meeting
