

FOSSR

Fostering Open Science in Social Science Research

KICK OFF MEETING

25 November 2022

Rome, Via dei Taurini 19 - Aula piano terra

FOSSR adopts the common theme of the development of Open Science in the Italian context with the goal of creating a framework of tools and services for the social science scholar community involving the RIs in social sciences coordinated by CNR, namely CESSDA, SHARE and RISIS. The framework should take the form of an integrated knowledge sharing platform, a single point of access to all the tools and services made available by the Italian nodes of social science infrastructures.

FOSSR fosters the building of an Italian Open Science Cloud, along the lines of the European Open Science Cloud project, in which to integrate innovative services developed by the project for data collection, data curation and fairness and data analysis on economic and societal change.

FOSSR wants to promote toward multiple audiences, a widespread knowledge and awareness of the data and methodologies employed in empirical social science, fostering the growth of a broad societal environment favorable to further thriving of social science research in Italy, providing easy, open, streamlined access to social science data through innovative interfaces.

Draft agenda

- 9,30 Introduction
- 9,45 Presentation of FOSSR
- 10,00 First Focus: The Open cloud aim and structure
- 10,30 Break
- 11,00 Second Focus: Online probabilistic panel and non-standard panel
- 11,30 Third Focus: Innovation in data analysis- Knowledge graph and policy learning models
- 12,00 Training and dissemination
- 12,30 Governance and sustainability
- 13,00 Financial and organizational issues
- 13,30 Wrap up
