

Labirintos da Origem:

The Crossroads of Geographical Indications

23 febbraio 2024
ore 13:30

23 de fevereiro 2024 Hora
09:30

In this 4th meeting, the Labyrinths of Origin series comes to an end, concluding how Intellectual Property can influence the differentiation of products that highlight and value origin. It goes beyond the geographical origin, reaching the collective business origin. As a final step, it discusses how the valued origin can mean prosperity, but it can also attract profits and unfair competition. How to control it to avoid losing the real origin in the future?

13:30h Patrícia Barbosa Celso Lage Gaetano Sabatini (Opening/Abertura)	INPI Brasil INPI Brasil Consiglio Nazionale delle Ricerche-ISEM
