

"Molecular mechanisms of cancer"

CNR Conference Room

CNR – Via P. Castellino, 111 Napoli

28 - 29 November, 2013

Organizers:

Daniela Corda, Maria Rosaria Coscia, Stefania Mariggìo

Institute of Protein Biochemistry

Thursday, November 28

9.00 – 9.30 Arrivals and Registration

9.30 – 9.45 Introduction

9.45– 10.45 **Alberto Mantovani :**
Molecular Pathways
linking Inflammation
and Cancer

10.45 – 11.30 Coffee break

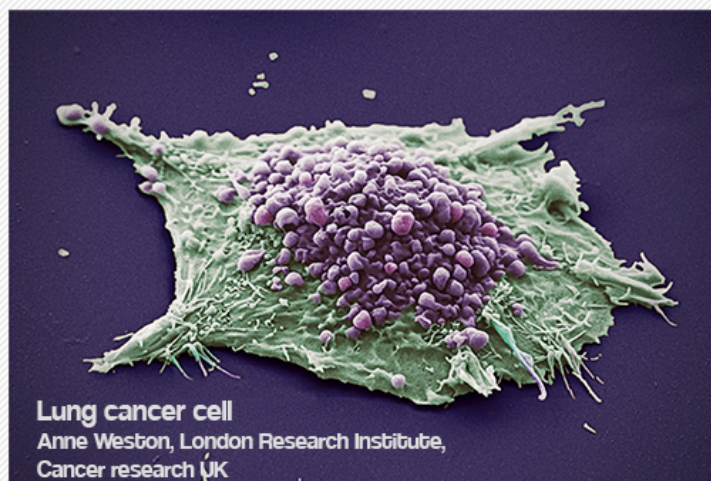

11.30 – 12.30 **Gennaro Ciliberto :**
Therapeutic Cancer
Vaccines: progress
and challenges

13.00 – 14.30 Lunch

14.30 – 15.30 **Massimo Santoro :**
RET oncogene in
human cancer

15.30 – 16.30 **Silvia Giordano :**
Cancer therapy: can
a target be MET?

16.30 GENERAL DISCUSSION

Friday, November 29

9.30 – 10.30 **Jacques Pouyssegur:**
Tumour Hypoxia and Metabolism
- Novel anticancer targets

10.30 – 11.00 Coffee break

11.00 – 12.00 **Silvia Soddu :**
DNA damage response
factors move to peripheral
organelles: a new mechanism
for ploidy maintenance?

12.00 – 13.00 **Gerry Melino :**
The p53 family as tumour
suppressor

13.00 GENERAL DISCUSSION

For further information, contact:

Ms Anna Di Costanzo

Institute of Protein Biochemistry, CNR

Tel. 081/6132579

Registration is free, please send an e-mail to: mmc@ibp.cnr.it before November 22nd, 2013
