## WORK EXPERIENCE (relevant to the assignment)

- Co-lead Work Package 2 of the “Framing And Bridging Regional research and Innovation ecosystems Capacities for a renewed ERA” – Era\_Fabric project (**2020-ongoing activity**). The project is designed by leading European actors in the domain of regional development and is funded by the Horizon Europe program. The project involves 9 countries, Italy, Austria, Spain, Portugal, Norway, Croatia, the Czech Republic, Romania and Poland and 11 partners, including universities and research institutions. The project aims to consolidate Era Hubs as knowledge ecosystems, as multi-stakeholder platforms, and as tools to support appropriate policymaking. The objective of Work Package 2 "ERA Hubs as Knowledge Ecosystems" is to map regional research and innovation systems in Europe and analyze the interaction of R&D and innovation actors at the regional and multiregional levels.
- Lead of research team on supporting the development of policy directions on science, technology and innovation (STI) that can contribute to sustainability, resilience and inclusion goals (**2023-ongoing activity**) in the **National Biodiversity Future Center's** Spoke 8.
- Steering committee board member of the Observatory on Innovation and Technology Transfer for the Society of the CNR Department of Humanities and Social Sciences (**2024-ongoing activity**).
- Co-lead task 1.3 e 2.3 of the Project ERA-LEARN - European Commission's support platform for European Partnerships (**2023-ongoing activity**). Activities concern carrying out specific analyses and case studies to make available to the European Commission indications of strategic interest to the Partnerships and identify synergies between European Partnerships and other European innovation funding programs.
- Co-lead research team on “Report on the state of research and innovation in Italy” (**2017-ongoing activity**): the Report provides an overall picture of Italy's performance and its evolution over the last few years through a series of scientific and technological indicators. A specific task is the investigation of regional strategies fostering businesses and the competitiveness of their territories.
- General Manager of IMAST (**2012-2013**), the Italian technological district for the engineering of polymeric and composite materials and structures, involved in fostering the technological innovation of industry promoting agglomeration processes, dimensional growth, qualitative and competitive raising of productions, organizations, skills, as well as their positioning in international markets, intercepting and attracting private investments in order to promote new entrepreneurship from emerging scientific and technological knowledge.
- PI of CNR'S Strategic Project “Technological transfer prototype” (**1996-1998**): national project aimed at promoting the technological transfer of the research results of the CNR, involving over 15 research units.

## MANAGEMENT EXPERIENCE

- From 2019 to 2020  
and 2024 - ongoing
- Acting Director**  
Consiglio Nazionale delle Ricerche - Istituto di studi sui sistemi regionali federali e sulle autonomie  
"Massimo Severo Giannini" (ISSIRFA)
- Director is responsible for scientific & administrative running of the CNR institute.
- From 2013 to 2014
- General Manager**  
Agenzia Spaziale Italiana (ASI)
- General manager is responsible for overall technical & administrative running of the Agency.
- From 2012 to 2013
- General Manager**  
IMAST Scpa
