to whom it may concern

**subject**: SHORT TERM MOBILITY - activity report for the period from October 31th to November 10th 2008 Prof. Sumanta Pattanaik

My time at the Visual Computing Laboratory was distributed among the following activities:

- I made a presentation of the research carried out by my laboratory, the UCF Graphics Lab with special focus on real time and realistic rendering techniques (wednesday November 4th )
- I spoke to individual researchers of the Visual Computing Lab (VCL) and learn about their work.
- I discussed with researchers of the VCL about collaboration on the research of common research topics and future research directions and possibility.
