

## Final Report of the Joint Bilateral Agreement CNR/SRNSFG Bilateral Programme 2019

Considering the General Agreement signed on July 16, 2018 and the joint call for the bilateral project launched on November 12, 2019;

At the deadline foreseen by the call, 10 proposals of joint research projects have been submitted to both parties.

After the evaluation step performed independently by both Parties, CNR (National Research Council of Italy) and SRNSFG (Shota Rustaveli National Science Foundation of Georgia) agreed to fund 5 joint research projects with the highest score on both sides.

Despite the large number of good proposals received, the Parties agreed on the following final ranking list of the financed proposals:

Joint Research Project	Georgian Institution	Italian Institution
Formal and informal accountability mechanism in Judicial Systems: the Georgian and Italian Cases Studies	Nino Tsereteli	Marco Fabri
Development of analysis techniques to study environment with remote sensing data. Comparison of two case studies: Italy (Rome) and Georgia (Tbilisi)	Mariam Tsitsagi	Lorenza Fiumi
Design, preparation and applications of new halogenated polysaccharide-based chiral stationary phases for liquid-phase separation of enantiomers Synthesis of novel chiral hydantoin and phenothiazine derivatives and study of their enantioseparation in high-performance liquid chromatography	Giorgi Jibuti	Paola Peluso
Synthesis of novel chiral hydantoin and phenothiazine derivatives and study of their enantioseparation in high-performance liquid chromatography	Bejan Chankvetadze	Alessandro Volonterio
Technology-Enhanced Strategies for Heritage study & valorization	George Partskhaladze	Daniele Ferdani
