Final Report of the Bilateral Agreement CNR/CAS

Triennium Programme 2022-2024

Considering the Agreement on Scientific Cooperation between CAS and CNR signed on March 15, 2018 and the joint call for the bilateral project programme launched on April 15, 2021

Both Parties agreed on supporting 5 projects in the framework of the joint programme (CNR: 4,000,00 euros per project per year and CAS 4,000,00 euros per project per year, during 3-year period).

After the evaluation performed independently by both Parties, CNR and CAS agreed to support projects which received the CNR score of minimum 18 and the CAS score of minimum 89/100, Group A.
Despite the large number of high quality proposals received, the Parties agreed on the following final ranking list of the supported proposals:

<table>
<thead>
<tr>
<th>Joint project</th>
<th>Czech project leader</th>
<th>Italian project leader</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exploration of prebiotic synthesis mechanisms in impact craters</td>
<td>Dr. Martin Ferus</td>
<td>Dr. Franz Saija</td>
</tr>
<tr>
<td>Subnanometer Cluster Catalysts for Green Chemistry (SNaGC): a Combined Theoretical and Experimental Thrust</td>
<td>Dr. Štefan Vajda</td>
<td>Dr. Alessandro Fortunelli</td>
</tr>
<tr>
<td>Exploring RNA modifications in infectious non-coding RNAs</td>
<td>Dr. Hana Cahová</td>
<td>Dr. Beatriz Navarro</td>
</tr>
<tr>
<td>High-performance nanolayer-coated fiber-based biosensing platforms with antifouling brushes for detection of post-acute COVID-19 syndrome biomarkers in blood plasma</td>
<td>Dr. Hana Lísalová</td>
<td>Dr. Francesco Chiavaioi</td>
</tr>
</tbody>
</table>
Joint project | Czech project leader | Italian project leader
---|---|---
Improving the short-term forecast of convective events using the Meteosat Third Generation observations over Europe | Dr. Jana Popová | Dr. Stefano Federico
