

Giancarlo Cammerini

September 20th, 2018
Ferrara, Italy

at RemTech EXPO

We are facing the last year of a vibrating activity between Europe and India, of valuable researches in water and soil reclamation, of fruitful networking job among public entities, policy makers, research institutions, private companies and stakeholders dealing with environmental issues.

TECO Team is proud to sum up and share with all of you the exciting work carried out in four years, laying the foundations for future research opportunities.
