

TECO Final Conference 2018

TECO Project Final Conference 2018

EU-India Research and Innovation
Partnership

RemTech Expo is the only permanent international event dedicated to reclamation of contaminated sites, environmental and natural hazards, safety, maintenance and upgrading of the territory, climate changes and circular chemistry.

It is aimed at a qualified and large community, composed of private companies, public entities, universities, research centers, associations and professionals and it is characterized by a specialized exhibition area, high level technical, technological, scientific congressional sessions, and an intense networking activity, round tables, training courses for operators, authorities and decision makers.

Technological ECO-innovations for the quality control and the decontamination of polluted waters and soils

TECO Project Final Conference 2018

TECO Project is dedicated to the implementation of EU-India exchange of experts and innovators in the field of technological eco-innovations applied to the improvement of the quality of waters and soils.

TECO Project aims at giving new opportunities of sharing experiences and starting up collaborations between EU and India by stimulating research centres, private industries and public institutions to implement thematic networks and activate people exchange programmes.

Mobility is financially supported by providing monthly grants.

Activities are mainly focused on the development of new ideas in the field of innovative technologies applied to the improvement of water and soil quality.

"Today pure water, good earth, fresh air are unknown to us. We do not know the inestimable value of ether and the sun. If we make wise use of these five powers... we shall have done the work of the ages!" Mahatma Gandhi

"The network of scientists which results from TECO project is a perfect bridge to other actions and initiatives on water It is also another good example of joining forces." H.E. Tomasz Kozlowsky, Ambassador of the European Union to India

"We are aware that the destruction or the contamination of our natural resources, water and soils, and their strong impact on human health pose an urgent request for a reversal of this trend" Dr. Massimo Zacchini, TECO Project Manager

PROGRAM OVERVIEW

- 1:30 pm – Registration
- 2:00 pm – Introduction and greetings
- 2:30 pm – First Technical Session
- 4:00 pm – Coffee Break
- 4:30 pm – Second Technical Session
- 6:00 pm – Summing up & Perspectives

TECO Project is
co-funded by
the European
Union
2014-2018

Participation is
free of charge,
prior
registration to
RemTech Expo

Coordinator

Consiglio Nazionale delle Ricerche
(CNR, Italy)
Project manager: Dr. Massimo Zacchini

Partner

National Environmental Engineering Research Institute
(NEERI, India)
Project officer: Dr. Paras R. Pujari
