

CALL FOR ABSTRACTS

International Conference and Exhibition

19 - 23 September 2022

REMTECH EXPO

<http://www.remtechexpo.com/index.php/en/description/remtech-europe>

DESCRIPTION

RemTech Europe, International Conference and Exhibition on land and water remediation markets and technologies, is scheduled for 19-23 September 2022.

The first two days of the conference **19-20 September** will be **fully digital**, and broadcasted in streaming. The other three days **21-23 September** will be **hybrid** so in presence but also broadcasted through Remtech platform. Anybody in the world will be able to follow every session for all the 5 days.

The aim of the Conference is to share information on knowledge, innovation and case histories, to encourage the development of remediation processes and the application of new and sustainable technologies and bring together suppliers and problem owners of available services and technologies. RemTech Europe also provides a platform for discussion between stakeholders.

The agenda is rich and is designed to promote the sharing of knowledge and intercommunication between all relevant parties. It involves all leading European stakeholders.

The annual RemTech Europe conference will take a snapshot of the European market and the development trends. Participation is **free of charge**.

CALL FOR ABSTRACT - DEADLINE 31 May first call –30 June just for Private companies

To submit your abstract and participate in the official sessions of RemTech Europe, please submit an abstract including: Title of the presentation, Author/Speaker name/names, Affiliation, Contacts (e-mail and telephone number of the main speaker). Please use the following template and send it in .doc file (preferred) or .pdf format. The first call deadline is **31th of May** for public bodies, universities, NGOs, the last call is set at **30th of June** and is reserved just for private companies. A participation fee of 800€ is requested to private companies. Some abstracts will be selected for a special number of the scientific publication of SETAC journal "Integrated Environmental Assessment and Management" dedicated to Remtech Europe WITHOUT COST FOR AUTHORS.

CONTACTS RemTech Expo Office, secretariat@remtechexpo.com

HOW TO PARTICIPATE AS ATTENDANT

To follow online, you may just register with a valid email at the sessions where you are interested (<http://www.remtechexpo.com/index.php/en/description/remtech-europe>). To join here the face-to-face meeting you need to register in Remtech website. You will be allowed to participate to the all the conference sessions, it is completely free of charge for everybody.

(<http://www.remtechexpo.com/index.php/en/visitors/visitors-subscription>).

WHY SHOULD I ATTEND? THERE ARE 7 REASONS!

REAP benefit from technical presentations in two parallel session tracks where messages and findings will be thoroughly conveyed and actively discussed.

EVALUATE the latest technologies and products where you can interact directly with multiple suppliers who can answer your on-the-spot questions and provide solutions to your most pressing concerns.

MASTER from focused and relevant presentations on current theoretical and practical aspects of environmental health, science and engineering as well as related industry-specific topics of interest.

TURN UP cutting-edge developments based on completed projects and/or conclusive evidence within the environmental health, science and engineering fields.

EXPERIENCE an interactive and vigorous exchange of ideas related to today's most important environmental health, science and engineering research issues

CONNECT and network with hundreds of top industry professionals. With two receptions, breakfasts, lunches and various networking breaks, you'll have the chance meet with new industry contacts and further establish existing business relationships.

HAVE DEALINGS with carefully selected chairs and presenters consisting of the world's leading experts within the academic, regulatory and environmental consulting communities.

WHO WILL PARTICIPATE?

RemTech Europe will draw leaders and key stakeholders from academia, government, regulatory community as well as site owners, private consulting agencies and various other environmental professionals. Here are just a few of the job titles that you will find: CEOs, Chief Scientist, Chief Hydrogeologist, Director of Environmental Projects, Drinking Water Treatment Engineer, Environmental Chemist, Environmental Remediation Engineer, Environmental Project Scientist, Field Environmental Engineer, Principal Geochemist, Project Director, Regulator, Remediation Engineer, Research Microbiologist, Restoration Project Manager, Senior Engineering Geologist, Toxicologist, Vice President of R&D, Wastewater Treatment Engineer

PROVISIONAL PROGRAMME

Plenary sessions

Each session will be of **1h30** with two will be followed by an interactive dialogue where **chairs will be interviewers and speaker will be panelists**, with space for questions and thoughts from the broad audience.

Training courses

They will focus on specific hot topics with relevant **trainers** worldwide.

Live Demonstrations

Some selected companies will broadcast the use of their **patented technologies** from their headquarter or in the green areas outside Ferrara Fiere. The Live Demo session is intended to highlight the technical part and not the commercial side.

Poster contest

RemTech Europe has organised a poster contest. Deadline for presentation is 31th May.

Sustainathon

Following on from last year, Remtech Europe will organize "Sustainathon 2022": a 24 hour marathon of speakers from around the world on how they are implementing **sustainable remediation** and **water use** in a context of sustainable development goals, n.11 and n.6. Presentations should highlight different perspectives and experiences about proper environmental management. Propose your speech by sending an abstract to secretariat@remtechexpo.com with "Sustainathon 2022" in the subject of your email.

CONFERENCE MAIN TOPICS

SUSTAINATHON

Sustainability the road to global value

**CHARACTERIZING
SOIL HEALTH**
