

Curriculum Vitae

Leandro Augusto Gomes

Leandro Augusto Gomes. Completed the Bachelor in Energy Engineering in 2017 at the Rio Grande do Sul State University (Brasil). Completed 2022 the Bioenergy Ph.D. program at NOVA University of Lisbon (Portugal). Is a Ph.D. Research Fellow at NOVA University of Lisbon at the Department of Biomass Science and Technology, collaborating with Portalegre Polytechnique Institute. Works in Energy and Technology with an emphasis on Energy Engineering, emphasizing Bioenergy, Bioproducts, and Biofuels. Currently collaborate in CNR ITAE, in Messina, in projects involving water electrolysis and hydrogen production.

2022/09/27 - 2022/09/30	WASTE2H2 project offered a course on career development to the staff from IPPortalegre. The course included	WASTE2H2: Technical and career development training Karlsruher Institut für Technologie,

technical sessions on various core competency areas on successfully managing research-funded projects and career development training, with several career development opportunities. This training was at KIT and included sessions about funding opportunities, proposal writing, managing (research), projects, managing research impact, managing Intellectual Property (IP), and raising awareness "from laboratory to market," among others.

WASTE2H2's thematic workshops are opportunities to unite senior and junior members of each partner's teams (KTH, KIT, ENEA, and IPPortalegre) in an environment of sharing and scientific curiosity. The sessions have a duration of 3 days and include several lectures and seminars within the scope of the project, and are delivered by the senior members of each partner and some invited researchers of international renown.
