Education and training

November 2021 - July 2023 Internship at the Institute of Genetics and Biophysics "Adriano Buzzati Traverso" at the National Research Council of Naples (CNR). Studies involving cell division and genome instability in cancer.

July 20, 2023 Master Degree in Biological Science (curriculum in Molecular Diagnostics) at the University of Naples "Federico II". Thesis in General Pathology, entitled: "Analysis of CDK1 expression during the cell cycle following Profilin 1 inactivation associated with the onset of osteosarcoma in Paget's disease of bone". Final grade 109/110

March 30, 2020 Bachelor's Degree in General and Applied Biology (curriculum in Molecular Biology) at the University of Naples "Federico II". Thesis in Zoology, entitled: "Symbiosis between crustaceans and sessile cnidarians. Co-evolutionary dynamics of the species involved."

July 5, 2016 High School Diploma with a specialization in Science at L.S.S. "Renato Caccioppoli" (NA).

Specific Skills

Molecular and cell biology techniques. Cell cultures (experience in cell synchronization and use of proliferation assays), transcriptional and proteic expression analysis by using Western Blot and Real Time PCR, histological analysis.
