Luca Garzino Demo

ABOUT ME

I am both an ambitious student of Philosophy interested in the philosophy of social sciences and a student of Social and Political Sciences with a keen interest in social norms. I built my educational path learning the fundamentals of logic, philosophy of science, and research design. I am particularly enthusiastic about norm change, signaling theory and open science. I am fundamentally concerned with experimental methodologies and I aim to make potential policy implications of my work.

EDUCATION

2020-2022 **Master's Degree in Philosophy**

University of Turin (Italy)
- Final mark: 110/110 cum laude and "dignità di stampa" (thesis recommended for publication)
- Advanced training in philosophy of science, logic and game theory in an international curriculum (emphasis on analytic philosophy)
- Particularly relevant courses: games, preferences and decisions; formal epistemology and philosophy of science; social choice theory
- Thesis: "an agent-based model of open science practices". Supervised by J. Sprenger and A. Szekely. Maximum grade with "dignità di stampa" (recommended for publication)

2020-2022 **Allievi Honors Program in Social and Political Sciences**

Collegio Carlo Alberto (Italy)
- Final mark: Degree awarded with special mention
- Master's equivalent honors degree that I did at the same time of the Master's in Philosophy. Advanced training in research design, quantitative methodology, and signaling theory. I learned about lab, survey, and field experiments as well as GIS and archival data
- Particularly relevant courses: applied research design; applied econometrics; tutorial in social and political sciences
- Thesis: "do scientists need to be pushed to open science?". Supervised by A. Szekely. Grade expected for 12/14/2022

2017-2020 **Bachelor Degree in Philosophy**

University of Turin (Italy)
- Final mark: 107/110
- General training on contemporary philosophy and history of philosophy
- Particularly relevant courses: research ethics
- Final dissertation: "the non-identity problem as a fundamental challenge to ethics". Supervised by M. Balistreri.

2012-2017 **Liceo Classico Diploma**

Liceo Valsalice of Turin (Italy)
- Final mark: 86/100
- High school with emphasis on humanities
- Winner of the Prize "Lingua e civiltà classiche", Certamen Augusteum 2017 (competition on Latin culture)
