## The Mediterranean Sea We Need for the Future We Want

### Regional Workshops for the UN Decade of Ocean Science for Sustainable Development 2021-2030 Venice, UNESCO-IOC, 21-23 January 2020

Dear participants,  
the Italian Oceanographic Commission has the honor and the pleasure to welcome you to this Mediterranean Regional Workshop. This document is aimed to provide you some logistical information in order to make your stay as pleasant as possible.

#### VENUE

Venice is located on northeast coast of Italy and protected from the Adriatic Sea by a strip of land called the Lido. It is known worldwide as the city of canals, a romantic hideaway and a great tourist attraction. The Republic of Venice was a major maritime power during the Middle Ages and Renaissance, as well as a very important center of commerce (especially silk, grain, and spice) and art in the 13th century up to the end of the 17th century. This made Venice a wealthy city throughout most of its history. It is also known for its several important artistic movements, especially the Renaissance period.

The Mediterranean Regional Workshop will take place in the **UNESCO-IOC Venice Office, Palazzo Zorzi**.

The Palazzo Zorzi Galeoni or Palazzo Zorzi a Rio San Severo is a Renaissance style palace of the Zorzi family (also spelled Giorgi) in the Sestiere of Castello, in central Venice, Italy. It was designed after 1480 by Mauro Codussi and lies a few streets away from Santa Maria Formosa, also designed by Codussi.
