

18th International Workshop on Low Temperature Detectors

22-26 July, 2019 – Milano, Italy

Workshop topics

- Low Temperature Detector development and physics
- Detector readout, signal processing, and related technologies
- Low Temperature Detector fabrication techniques and materials
- Low Temperature Detector applications
- Low Temperature Detector for quantum technologies and other frontiers
- Technology transfer, outreach, and dissemination

LTD-18 chairs

A. Nucciotti, C. Brofferio

University and INFN Milano-Bicocca, Italy

R. Cristiano

CNR-SPIN Napoli, Italy

Location

Auditorium G. Testori

Palazzo Regione Lombardia

Piazza Città di Lombardia, 1 - Milano, Italy

web site: www.ltd18.unimib.it

abstract: agenda.infn.it/e/LTD18

registration: www.ltd18.promoest.com

info: ltd18@unimib.it

Invited review speakers

K. Berggren (MIT, USA)

A. Fleischmann (Heidelberg University, Germany)

J. Fowler (NIST, USA)

J. Gao (NIST, USA)

A. Giuliani (CNRS/CSNSM, Orsay, France)

K. Irwin (Stanford University, USA)

C. Kilbourne (NASA/GSFC, USA)

P. Mauskopf (Arizona State University, USA)

O. Noroozian (NRAO/NASA, USA)

G. Pessina (INFN Milano-Bicocca, Italy)

F. Petricca (MPI Munich, Germany)

S. Pirro (INFN, LNGS, Italy)

M. Sisti (University and INFN Milano-Bicocca, Italy)

F. Taccetti (INFN Firenze, Italy)

S. Yamada (Tokyo Metropolitan University, Japan)

L. You (Chinese Academy of Sciences, China)

LTD International Advisory Board

- J. Beyer (PTB, Germany), B. Cabrera (Stanford University, USA), C. Chang (Chicago University, USA), M. Chapellier (CEA, Saclay, France), H.-M. Cho (SLAC, USA), R. Cristiano (CNR-SPIN, Napoli, Italia), Ch. Enss (Universitaet Heidelberg, Germany), E. Figueroa-Feliciano (Northwestern University, USA), S. Friedrich (LLNL, USA), F. Gatti (Università di Genova, Italia), K. Irwin (Stanford University, USA), Y.-H. Kim (IBS/KRISS, Korea), C. Kilbourne (NASA/GSFC, USA), A. Kozorezov (Lancaster University, UK), M. Loidl (CEA, Saclay, France), I. Maasilta (University of Jyväskylä, Finland), B. Mazin (UC Santa Barbara, USA), D. McCammon (Wisconsin University, USA), K. Mitsuda (ISAS/JAXA, Japan), A. Monfardini (Institut Néel, CNRS, France), H. Moseley (NASA/GSFC, USA), A. Nucciotti (Università di Milano-Bicocca, Italia), M. Ohkubo (Tsukuba University, Japan), F. Proebst (MPI, Munich, Germany), M. Rabin (LANL, USA), B. Sadoulet (UC Berkeley, USA), J. Ullom (NIST, USA), F. von Feilitzsch (TU München, Germany), B. Young (UC Santa Clara, USA), J. Zmuidzinas (Caltech, USA)
