Scientific cooperation, agreements signed between [CNR](#) and Russian institutions

Strengthening the scientific relationships between **Italy and Russia** to encourage the **exchange of ideas** and scientific and technological skills between the two countries.

With this purpose, the Italian **National Research Council-[CNR](#)** and two Russian research institutions, the **Russian Academy of Science** and the **Russian Foundation for Basic Research**, have formalized their new partnerships.

The agreements were signed during [CNR](#) President Massimo [Inguscio's](#) mission to Moscow. The agreements signed by [CNR](#) and Russian Academy of Science and the Russian Foundation for Basic Research will be in place for **four and five years**, respectively.

"The agreements are based on the common desire to contribute to improve the existing relationships between the two countries and to encourage the circulation of knowledge and skills to promote scientific and technological progress to the benefit of both countries, also by increasing the number of researchers to be involved in bilateral projects", said [Inguscio](#).

The collaborations between the two countries will concern **several different scientific areas** and will involve the researchers from the two countries through **bilateral and multilateral projects**.

Directorate General

Actions

"Russia is an extraordinary laboratory in terms of researchers, environment and investigation, unique in the world. It has always been a scientific, technological and innovation stimulating scenario for year in several study fields and research disciplines", concluded [CNR](#) President.
